

Greensborough Football Club Registration Now Open

Dear Player,

On behalf of the Executive Committee, welcome to season 2025!
Registration is now open on PlayHQ, there is a new link to this found below.

2024 was an amazing season for the club and congratulations to you all! To have 4 out of 5 teams in the finals is an extraordinary effort for players, coaches and everyone that volunteers at the club.

Financially we have run at a loss for the last three years. As you will be aware from players at other clubs, we have one of the lowest registration fees in the competition. However, this year it will need to be increased as last year (as well as previous years) we barely covered our costs regarding putting teams on the ground.

These costs will include NFNL fees (which has been indicated to us by the NFNL will increase by 6-8% this year.) as well as increased costs of equipment, footballs, tape, video recording of our games, our amazing trainers and fitness support, merchandise costs, etc. We thank you for your understanding and have done our best to keep the increase to a minimum.

Even with the increased registration fees, we will need to look for opportunities to increase club revenue. Therefore, we are also asking that every player gets a player sponsorship to help support our great club. It will also be important that you continue to support club functions and other fundraising activities like the 5K Day, Toyota Raffle etc.

Please also note the NFNL have also introduced a new fee, which adds \$30 to your registration that goes directly to the NFNL.
